

# We've Got the Music

© 2011 Confaloniere, Loxton, Prichard, Thistlethwayte

**Verse 1** From the moment I was young  
Just wanted to sing my song  
And tell my story well  
And all the times I was feeling down  
Music's always been around  
To pick me up again

**Pre chorus** Music is our way – you gotta tell somebody  
We came here to say – it's for everybody

**Chorus** So get on your feet, feel your heartbeat  
We've got the music  
We're not too proud to sing it out loud  
We're not afraid to use it

**Verse 2** When my love is nowhere found  
All I need is the sweetest sound  
It's like a sunset in my eyes  
If you really want to help your mind  
Put on a song and you might find  
That music's changed your life

**Pre chorus** Music is our way – you gotta tell somebody (tell somebody)  
We came here to say – it's for everybody

**Chorus** So get on your feet, feel your heartbeat  
We've got the music  
We're not too proud to sing it out loud  
We're not afraid to use it

So get on your feet, feel your heartbeat  
We've got the music  
We're not too proud to sing it out loud  
We're not afraid to use it

**Pre chorus** Music is the way – you gotta tell somebody (tell somebody)  
We came here to say – it's for everybody (everybody)

**Chorus** So get on your feet, feel your heartbeat  
We've got the music  
We're not too proud to sing it out loud  
We're not afraid to use it

(Repeat chorus x 3)

We've got the music!
